## Notice Regarding Fraudulent Emails Impersonating Mitsuuroko Green Energy Co.,Ltd.

Mitsuuroko Green Energy would like to inform our employees, partners, and the wider community about fraudulent activities involving the impersonation of our company and their employees.

We are aware that individuals and/or syndicates are using the domain name "@mitsuurokogreenenergy.com" to falsely represent themselves as key figures within our organization. We suspect that there may be other domains mimicking other companies under Mitsuuroko Group Holdings in a similar fashion.

The Group urges all employees, affiliated companies, and external parties to exercise caution and vigilance when receiving emails with the domain name "@mitsuurokogreenenergy.com" or any other domain names that imitate our Group companies. These emails often mimic legitimate correspondence and may include requests for recruitment, sensitive information, financial transactions, and other suspicious activities.

Our Group conducts recruitment activities exclusively through recruiting agencies, and we do not directly contact individuals for recruitment purposes. Furthermore, we do not enter into contracts solely based on email interactions without face-to-face contact and other verification methods.

Mitsuuroko Group Holdings emphasizes the following measures to safeguard against potential harm:

1. **DO NOT REPLY** to or engage with individuals or entities that use email addresses with fake domain names, such as "@mitsuurokogreenenergy.com".
2. **REPORT** any suspicious emails or communications received from such email addresses to your organization.
3. **NOTIFY** the local authorities if you believe you have become a victim of such fraudulent activities.
4. **SHARE** relevant information within your organization and with business partners to raise awareness of these activities.

To ensure the security of our employees, partners, and the broader community, Mitsuuroko Group Holdings is actively cooperating with law enforcement and taking comprehensive steps to investigate fraudulent activities and mitigate potential risks.
